

Tokai Carbon CB strives to procure products from companies who operate lawfully and responsibly to ensure sustainability. TCCB's Sustainable Procurement Policy states the guidelines that all employees must follow when looking for or working with a supplier:

- TCCB employees may not conduct business with a supplier who does not follow all Environmental, Health, and Safety standards for their region.
- TCCB employees may not conduct business with a supplier who is irresponsible with manufacturing, possibly putting employees or the public in danger.
- TCCB employees may not conduct business with a supplier who does not follow all national or international labor standards.
- TCCB employees may not conduct business with a supplier who operates using forced labor or child labor.
- TCCB employees may not conduct business with a supplier who supports harassment or discrimination.
- TCCB employees may not conduct business with a supplier who does not follow all laws regarding proper working hours and minimum wage.
- TCCB employees may not accept any bribes.
- TCCB must provide an assessment to all major suppliers to fill out to ensure that the supplier can uphold the standards set in the Supplier Code of Conduct.
