

Carbon Black • SR155

SR155 is a high surface area, abrasion-resistant N100 series carbon black. It was developed for tire tread compounds requiring a high degree of reinforcement. SR155 is particularly suited for high-performance applications where excellent tread wear, handling, and traction characteristics are desired.

TYPICAL APPLICATIONS

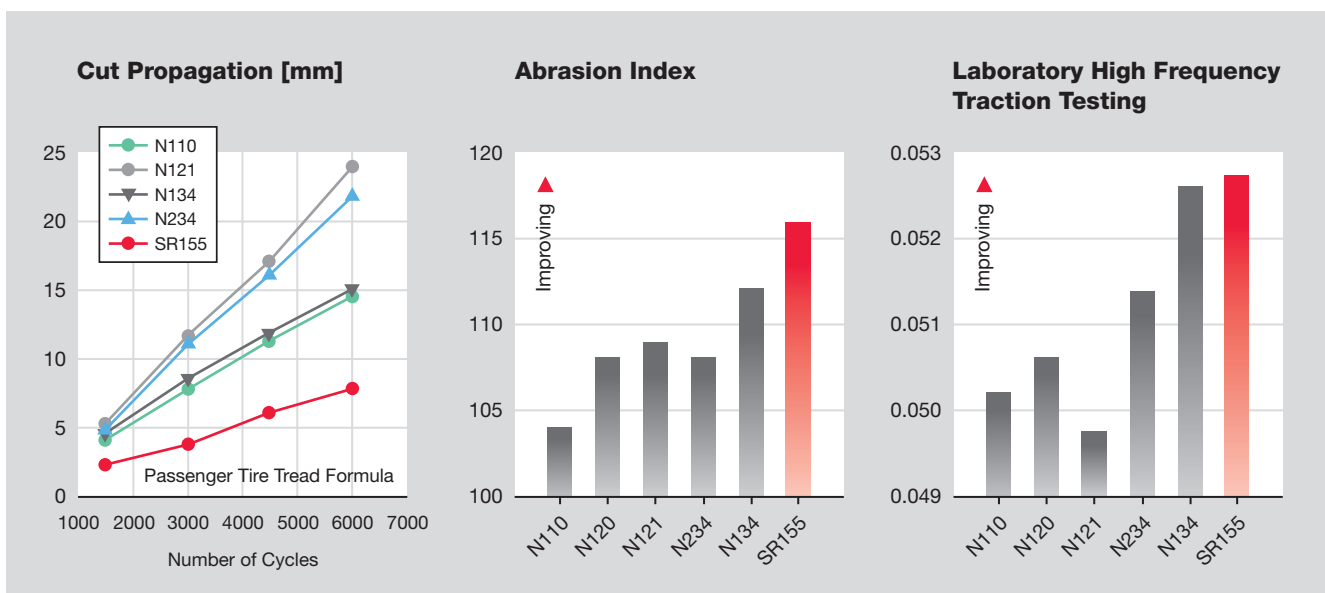

- High performance passenger tire treads
- Race tire treads
- Truck tire treads

PERFORMANCE FEATURES

- High degree of reinforcement
- Excellent abrasion resistance
- High hysteresis for improved traction
- Excellent tear-resistance
